

Using the online store

Acceptance of the General Terms of Service by the Customer is the precondition for using the online store. Using the services provided by the Service Provider, i.e. ordering or purchasing a product or service, is qualified as the acceptance of the General Terms of Service.

The Service Provider reserves the right to partially or fully amend the General Terms of Service at any time. The General Terms of Service and the respective amendments come into force at the time of their publication.

If you require more information about a product, click on its picture or its name. The pictures shown on the product page might differ from the actual product, and at times these images serve as illustrations only. Our company shall not be held responsible for unannounced amendments of the technical user's guides made by, or happening outside of the scope of influence of, the supplier.

Prices indicated in the online store show the net and gross prices of the products, together with the indication of the amount of VAT.

Method of purchase

1. Place the product that you wish to purchase into the "Basket".
2. If you wish to place more items into the "Basket", choose the "Continue shopping" option. If you do not wish to purchase more products, please check the quantity of the items in your "Basket". The contents of the "Basket" can be deleted by clicking on the "Empty basket" button. The contents of the "Basket" are automatically refreshed after entering the quantity of the products; if the contents, however, are not refreshed, please click on the "Refresh basket" button.
3. Choose the method of payment and delivery.
4. Confirm your order.
5. Enter the data for the delivery and the invoice. If you have not already signed in, the registration process might be initiated at this point.
6. Click on the "Place order" button to submit your order.
7. An email confirmation will be sent to your account.

It is important to check the data entered, as this information will be used for billing and for the delivery of the product. The registration process has to be completed only once; in case of future orders, these steps do not have to be repeated: you can sign in using your user name and password.

Registration

Accessing certain parts of the website and using certain functions necessitate the user's registration. The primary aim of the registration is to facilitate using the website and making purchases in the store. By registering, the Customer accepts the General Terms of Service. Data provided at the registration are managed confidentially.

The contract comes into force by placing an order in the Service Provider's online store and by accepting the General Terms of Service. The contract is qualified as a written contract, which is filed and stored by the Service Provider. The language of the contract is Hungarian.

Completing the registration, providing the data necessary for billing and delivery, as well as entering the Customer's contact information are preconditions for placing an order in the online store. The order is placed when the Customer confirms it in its final form. If the truthfulness of the data provided by the Customer is questionable, or the data is unintelligible, the Service Provider reserves the right to delete the data and cancel the order.

After the confirmation of the order, the order cannot be cancelled electronically. The order can be cancelled via the email address or phone number available at the contacts menu of the online store. Cancelling the order is possible only prior to the product being transferred to the postal service / courier service company for delivery.

Conditions of payment and delivery

Prices indicated in the online store show the net and gross prices of the products, together with the indication of the amount of VAT.

Delivery by a courier service company

Courier service company contracted by the Service Provider.

Name of company: DHL Express Magyarország Szállítmányozó és Szolgáltató Kft.

Company seat: Fehérakác u. 3., Budapest 1097, Hungary

Phone: +36 40/454-545

Email address: ugyfelszolgalat.hu@dhl.com

The Customer performs the payment of the order in cash when receiving the order from the deliverer. The invoice to be found inside the package includes the delivery cost, too. The deliverer will provide a receipt of the cash payment. Partial delivery is not made possible by the Service Provider, and the deliverer cannot accept a partial payment. The Customer can receive all the items of the order together, or reject the whole order. Please check the contents of the package in the presence of the deliverer, and in case of damaged products, ask for a written record to be drawn up, and do not take the order from the deliverer. The delivery of orders is carried out on weekdays, between 8 a.m. and 5 p.m. The courier service company attempts to deliver the package twice; the Customer will be charged the delivery cost of unclaimed packages.

The delivery cost varies depending on the product ordered, on the delivery address and the method of delivery, but it is at all times displayed in the order processing application of the online store before finalizing the order.

Certain products, owing to their size and/or price, cannot be delivered by the courier service company. Such products are available only for personal pickup at the following address: Stefánia út 61., Budapest 1143, Hungary.

Personal pickup (free of charge): at Stefánia út 61., Budapest 1143, Hungary, between 10 a.m. and 6 p.m. Payment is made by bank transfer prior to the personal pickup.

Payment methods

Bank transfer in advance:

In case of bank transfers, please transfer the total amount of your order (and the cost of delivery) to the following bank account:

Name of company: Műszercentrum Kft
Tax registration number: 24187691-2-41
Bank account number: HU20 – 11713177- 20002925 – 00000000

Payment by credit card:

Credit card acceptance is provided by OTP Bank Nyrt., with its safe service using the SSL protocol. Credit card payments are redirected to the site of OTP Bank, therefore payment is made not in the webstore, but directly on the site managed by the Bank, which is operated according to the rules and security regulations of international credit card companies. The online store has no access to the data of the credit card and the of the corresponding bank account (number, expiry date).

Please prepare your credit card for payment. For the payment to be made, you will need the following data:

- Card number (13-19 digits, printed or embossed on the front side of the card)
- Expiry date (in format MM/YY, printed or embossed on the front side of the card)
- Authentication code (the last three digits of the number printed on the back side of the card, in the signature field (CVV2 or CVC2); if your card does not have such a code, please leave the corresponding field empty on the payment page)

Our webstore accepts the following cards:

- MasterCard (embossed)
- Visa (embossed)
- American Express (embossed)
- Electron (unembossed). In the case of these cards, the card issuing bank defines if the card can be used for Internet payments. If your card issuing bank authorizes Internet payments, you can of course use this card in the online store. For further information, please contact your bank. Cards issued by OTP Bank will be accepted.
- Maestro. The payment site of OTP Bank makes it possible to use Maestro cards issued by any bank. The precondition of acceptance is that your card issuing bank support the use of Maestro cards for e-commerce transactions. For further details, please consult your bank.

To further increase the security of Internet payments, OTP Bank introduced its Verified by Visa/MasterCard Secure Code (VbV/MSC) service. This means that the card issuing bank

provides the card owner with an additional authentication possibility, which is checked during the payment process to unambiguously identify the person using the card.

If the VbV/MSC service is not available at your bank, or if you did not request this service, the payment process will not be altered. The online store will redirect you to the OTP site for you to enter the details of the card (number, expiry date and authentication code), and payment for the goods/services purchased will be made.

If your bank does offer a VbV/MSC service which you use, the process of the transaction will be altered. You will need to enter your card details (number, expiry date and authentication code) at the OTP payment site, but after this step, you will automatically be directed to the relevant page of your card issuing bank for you to carry out the identification process. After a successful identification, the transaction will be carried out, you will be notified of its success, and then redirected to the online store. If you are unable to perform the identification process, the transaction will be closed unsuccessfully.
